Invitation for Webinar on AI and ML for ESG dated 06-04-2024

IEEE Delhi Section with Computer Society Chapter, Consultants Network Affinity Group, Life Member Affinity Group, Inter Society Relations, Industry Relations & SIGHT Standing Committees of IEEE Delhi with the associations CSI, Safa Society, ISTE Delhi Section, IETE Delhi Centre, invites you for a Webinar on 06-April -2024, the Saturday, at 06:00 p.m.

With an all-round hue and cry around climate change, it is imperative that all Businesses and individuals are made aware of the impending Global crisis. Hence, discussions on Environment, Social, and Governance (ESG) are on top of the table. But, since this exercise is not a one-time fix, the continuum necessitates the use of Technology, particularly AI. Using ML and AI, critical parameters regarding ESG and Sustainability can be monitored, tracked, and hence controlled. AI prompts will highlight hotspots on emissions which can then be addressed. This webinar provides us an opportunity to share thoughts and the latest developments on this subject and how digitalization, decentralization, and decarbonization can help mitigate this problem at hand. The webinar will discuss its all-round perspective including the real-time issues and challenges.
