Invitation for Webinar on Generative AI dated 20-05-2023

IEEE Delhi Section with Computer Society Chapter, Consultants Network Affinity Group, Life Member Affinity Group, Inter Society Relations, Industry Relations & SIGHT Standing Committees of IEEE Delhi with the associations CSI, Safa Society, ISTE Delhi Section, IETE Delhi Centre, invites you for a Webinar on 20-May-2023, the Saturday, at 06:00 p.m.

Generative AI refers to machine learning models that create new data like input data. This is a key feature as it can produce entirely new data. Generative AI techniques include neural networks, variational autoencoders, generative adversarial networks, and recurrent neural networks. They can generate text, images, music, and video. Applications of generative AI include creating synthetic data for training other machine learning models and generating new content for creative industries. The webinar aims to discuss all these aspects and applications of Generative AI.
