Invite you for a Free **Webinar** on **23-03-2024, the Saturday**, at **06:00 p.m.**
as per the details given hereunder:-

Speaker

Mr. Gireesh Kapila

Sr. Developer, .Net

**Date and Time
Schedule**

23-March-2024, the Saturday, from 06:00 p.m. to 07:30 p.m.

Title of the Talk

Authentication & Authorization in the Digital Age

**Venue and
Contact Details**

CISCO WebEx Meeting Platform

CISCO WebEx Event ID and Password shall be sent on E-Mail to the registered participants, at-least one day in advance. Please check your Spam and other folders also for our emails and mark it as SAFE / NOT SPAM.

**Programme
Schedule**

05:30 p.m. to 06:00 p.m. – Login, online Networking and Tea (at Home)

06:00 p.m. to 07:00 p.m. – Technical Talk

07:00 p.m. to 07:30 p.m. – Q & A Session followed by Certification

**Registration
Link and Fee**

Registration Link: <http://bvicam.ac.in/webinars/>

No registration fee. It is absolutely free for the members of IEEE, CSI, IETE, ISTE, ISCA, IITP and Bharati Vidyapeeth, with pre-registration

**Abstract of the
Talk**

Authentication and authorization play pivotal roles in bolstering the security of SaaS businesses and enterprise applications. Managing diverse user bases, including employees, external partners, and customers, each requiring distinct access levels, adds complexity. Traditional username-password authentication, while widely used, faces challenges due to password susceptibility. Multi-factor authentication (MFA) addresses this by adding layers of verification through methods like biometrics or mobile app-generated codes, significantly reducing unauthorized access risks. Authorization complexities arise from the need for fine-grained control over user permissions as enterprise applications support complex workflows. Striking a balance between granting adequate privileges for efficient task execution and safeguarding against unauthorized actions is an ongoing challenge. Role-based access control (RBAC) systems address these concerns, allowing administrators to define roles and regulate user access precisely. The webinar will discuss its all-round perspective including the real-time issues and challenges.

All are welcome:

Please circulate this to all your interested colleagues, associates and friends. Please register in large numbers and derive maximum benefit. **Advance registration is mandatory for participation. Participants will also get Participation Certificate.**
