Abstract of the Talk	There is a lot of negativity around us during this extended COVID-19 Pandemic Period. Communication is important during BAU (Business As Usual). Its importance increases many folds during crises. And now when we are anxious, stressed, busy taking care of loved ones, or care of ourselves, information overload is a big challenge. Everyone is busy in sending a lot to everyone else. Daman will present his new creation 'Daman's Thermometer' that comes handy in such situations – to sieve facts from rumours. The best feature of this thermometer is that it will work beyond COVID-19 Pandemic also. The webinar will have live demo with live cases.

All are welcome:

Please circulate this to all your interested colleagues, associates and friends. Please register in large numbers and derive maximum benefit. **Advance registration is mandatory for participation. Participants will also get Participation Certificate.**
