Abstract of the Talk

IEEE (Institute of Electrical and Electronics Engineers) is devoted to improving technology and innovation in a variety of sectors, including electrical engineering, computer science, and electronics. Despite the fact that IEEE's primary priorities are technical standards, meetings, and publications, it also actively encourages open science concepts and methods within its community. Writing a quality technical paper is essential for researchers and professionals in the field of engineering and related disciplines. The Institute of Electrical and Electronics Engineers (IEEE) provides guidelines and standards to ensure the effectiveness and clarity of technical papers. The webinar will also concentrate on how Open access publishing option works for the researchers. Open access promotes the democratization of knowledge, fostering collaboration, innovation, and the advancement of scientific progress.

All are welcome:

Please circulate this to all your interested colleagues, associates and friends. Please register in large numbers and derive maximum benefit. **Advance registration is mandatory for participation. Participants will also get Participation Certificate.**
