Abstract of the Talk

Dilated veins are seen along the leg, almost half of the population suffers from this problem, which can lead to heaviness, cramps and swelling. If not treated, it can lead to bleeding and ulcers. So, for pain free legs, basic awareness and knowledge, required preventive care and in emergency, consultation with the vascular surgeon is important. This webinar will discuss all round perspective of the same.

All are welcome:

Please circulate this to all your interested colleagues, associates and friends. Please register in large numbers and derive maximum benefit. **Advance registration is mandatory for participation. Participants will also get Participation Certificate.**
